St. Wolfgang, the town much praised in song, is visited by thousands of tourists every year. The "Weiße Rössl", just like the famous winged altar-piece by Michael Pacher and the great atmosphere at the romantic market place with its direct access to the lake will contribute to the well-being of each holiday-maker.

Worthy of mention is the fact that a number of shops are open even on Sundays, St. Wolfgang having its own market rights. It's a picturesque village, pleasantly situated at the quiet, sunny east shore of Lake Wolfgang with its emerald-green water.

Holiday Bungalow „GRÜNE AU“:

The well-equipped and well-kept facility is idyllically located on a ridge on the way into the village, next to the Main Facility „GRÜNE AU“. Twenty-nine steps zigzag their way up the plateau through an ecological slope forest. From its location there is a view of Lake Wolfgang and its surrounding mountains. The centre of the village is only a few minutes' walk and the lake just 300 m away. You may also go swimming at the „Appesbachwiese“ bathing-place near the village.
